

.novadiff-graph/diff-overlay.json

Kind: removed · Baseline: 9aadd5eb5604 · Target: NovaDiff · Generated: 2026-05-26T06:49:32.092Z

Overview

The file `.novadiff-graph/diff-overlay.json` was deleted. It previously stored JSON metadata with keys `"changedFiles"`, `"changedNodeIds"`, `"affectedNodeIds"`, and a timestamp.

Key changes

- Entire file removed (lines 1-430 deleted).
- No other code changes appear in this diff.

Impact

- Any component or service that reads this file will throw a file-not-found error unless it is guarded.
- Tests that assert the file's existence or its contents will fail.
- The removal eliminates the overhead of reading/parsing the JSON at startup, but the benefit is negligible.

Risks & follow-ups

- Verify that any UI or logic that depended on the diff overlay data has been removed or protected against missing data.
- Run the full test suite to catch residual references to the deleted file.
- Update documentation or README sections that mention the diff overlay feature.
- Ensure production builds do not expect this file; otherwise, the app may crash on launch.
