

packages/graph-core/scripts/language-names.txt

Kind: added · Baseline: a9c34bfb03fe · Target: NovaDiff · Generated: 2026-05-20T05:06:55.546Z

Overview

A new data file `packages/graph-core/scripts/language-names.txt` has been added.

The file contains 675 lines, each listing a programming language name (e.g., `A.NET (A#/A sharp)`, `ABAP`, `Python`, `ZPL`).

The diff shows lines 1-675 added (R1-675).

Key changes

- **File addition:** `packages/graph-core/scripts/language-names.txt` now exists in the repository.
- **Content:** 675 language names, covering mainstream and niche languages.
- **No code changes:** The diff only introduces this data file; no source files or tests were modified.

Impact

- Any component that imports or reads this file will now have a comprehensive list to work with.
- Future edits can be made in a single file rather than across multiple code paths.
- Build size increase is unknown from the available diff/scan evidence.

Risks & follow-ups

- Verify that modules expecting `language-names.txt` correctly resolve the new path.
- Ensure downstream consumers handle the plain-text format and any special characters (parentheses, slashes).
- Run existing tests that rely on language lists to confirm they still pass with the expanded set.
- Update any documentation that lists supported languages to reflect the new additions.
