

packages/graph-view/public/favicon.svg

Kind: added · Baseline: a9c34bfb03fe · Target: NovaDiff · Generated: 2026-05-20T05:05:51.536Z

Overview

A new file `packages/graph-view/public/favicon.svg` has been added. It contains a 32 × 32 SVG that defines a dark rectangle with a gold "U" centered inside.

Key changes

- File added: `packages/graph-view/public/favicon.svg`
- SVG markup (lines R1-R4):
 - `<svg xmlns="http://www.w3.org/2000/svg" viewBox="0 0 32 32">`
 - `<rect width="32" height="32" rx="6" fill="#0a0a0a"/>`
 - `<text x="16" y="23" font-family="Georgia, serif" font-size="20" fill="#d4a574" text-anchor="middle" font-weight="bold">U</text>`
 - `</svg>`
- No other files were modified.

Impact

- The graph view now has a custom favicon asset.
- Build tooling should copy this SVG into the public assets so it can be served.
- Browser caching may need to be considered if the favicon changes; versioning or cache busting can be used.

Risks & follow-ups

- Verify that the build process includes `packages/graph-view/public/favicon.svg` in the output; run `npm run build` and inspect the public folder.
- Run UI tests to confirm the favicon appears correctly in the browser tab.
- Ensure the path is unique and does not conflict with other favicons in the repository.
- If the favicon is not referenced in the HTML, confirm that the correct file path is used.
