

src/components/SidebarNav.tsx

Kind: added · Baseline: a9c34bfb03fe · Target: NovaDiff · Generated: 2026-05-20T05:00:48.227Z

Overview

A new `SidebarNav` component is added at `src/components/SidebarNav.tsx` (lines 1-238). It renders a navigation sidebar that reacts to launch state, local-only mode, and GitHub user data.

Key changes

- **Imports:** `appMark` image, `useLaunch` hook, `TypewriterText`, and several `lucide-react` icons (e.g., `BookOpen`, `Brain`, `Columns2`) are added at lines 1-16.
- **Exported type:** `WorkspacePage = "compare" | "history" | "docs" | "prs" | "publish"` (line 18).
- **Props interface:** `SidebarNavProps` defined lines 20-31; component signature at line 35.
- **Launch branding:** `useLaunch` provides `brandReveal` and `skipSequence` (line 48); a typewriter animation is rendered conditionally (lines 47-79).
- **Navigation links:** buttons (lines 133-190) use `workspacePage` to set an active class and disable themselves when `active` is false or `gitLocked` (derived from `localOnlyMode`).
- **User avatar:** shows `gitUser.avatarUrl` if present, otherwise a default icon (lines 210-222).
- **Settings button:** enabled only when `onOpenSettings` is supplied (lines 196-204).

Impact

- The sidebar now displays a launch brand animation and disables Git-dependent actions when `localOnlyMode` is true, altering user flow.
- Parent components must provide `workspacePage`, `onWorkspacePage`, and optionally `onOpenSettings`; missing props will break rendering.
- Adding an image and several icon imports increases the client bundle, but tree-shaking will remove unused icons.

Risks & follow-ups

- **`useLaunch` contract:** if its API changes, the brand reveal logic may fail; verify `brandReveal` and `skipSequence`.
- **Local-only mode gating:** test scenarios where `localOnlyMode` is true to confirm button disabling.
- **Icon imports:** any missing or renamed lucide icons will cause build errors; run `npm run build` to confirm.
- **`onOpenSettings`:** ensure a handler is passed or the UI degrades gracefully.
